Health Care YOUTH APPRENTICESHIP

WHERE CAN I WORK?

The Health Science Career Cluster includes occupations in the planning, managing, and providing of therapeutic, diagnostic, informatics, and support services. The outlook for careers in medical and health fields is strong and growing. Trends indicate that an aging population, increased use of electronic medical records, and a focus on lifestyle management will drive this occupational area into the future.

Students in health care learn and practice skills that prepare them for diverse post-secondary opportunities. These opportunities could include two or four-year college programs, apprenticeships or employment. The Youth Apprenticeship Program in collaboration with Career and Technical Education courses will introduce you to a variety of interesting careers.

Career Opportunities:

- Biomedical Engineer
- Exercise Physiologist
- Radiologic Technologist
- Health Information Coder
- Dietary Technician
- Optometrist
- Registered Nurse
- Surgical Technician
- Dentist
- Patient Coordinator
- Physician
- Medical Examiner
- Audiologist
- Pharmacist

Put your education to work while engaging in great projects and connecting with like-minded professionals. The health care industry offers a variety of potential worksite possibilities. Hospitals, long-term care residential facilities, dental and medical offices, clinics, pharmacies, and even insurance companies hire health science students.

WHAT WILL I LEARN?

This program will allow you to "try out" the career you are interested in and gain a broad understanding of the health care industry. You will not only obtain hands-on experience but will be better prepared for college and future career transitions.

WHAT CAN YOUTH APPRENTICESHIP DO FOR ME?

- Build your resume for college applications, scholarship applications and career portfolios
- Earn industry certifications
- Potentially earn advanced standing or transcribed credits for technical college or university programs
- Earn wages and high school credit while learning from professionals
- Earn a state-recognized certificate of occupational proficiency upon completion
